Rajibul Molla

Bengaluru, Karnataka

7718149790 | rajibulat@gmail.com | linkedin.com/in/rajibulmolla | github.com/Rajibul-Molla

Objective

Software Developer fresher with strong fundamentals in DSA, C++, DBMS, and Web Development. Experienced in React.js through internship and projects. Actively learning Generative AI and seeking an entry-level role to build scalable and impactful software solutions.

Education

Haldia Institute Of Technology — **Haldia, West Bengal**

Bachelor of Technology in Computer Science and Engineering — *2022 – 2025*

Brainware University — **Kolkata, West Bengal**

Diploma in Computer Science and Engineering — *2018 – 2021*

Technical Skills

Languages: C, C++, Java, Python

Frontend Technologies: HTML, CSS, JavaScript, React.js, Vue.js

Backend Technologies: PHP, Node.js, Express.js

Databases: SQL, MySQL, MongoDB

Computer Science Fundamentals: Data Structures and Algorithms (DSA), Object Oriented Programming (OOPs), Operating Systems (OS), Database Management Systems (DBMS), Computer Networks (CN)

Experience

WebGuru Infosystems — **January 2025 – March 2025**

Web Development Intern — *Kolkata, West Bengal*

- Gained hands-on experience in front-end and back-end development, building responsive, interactive UI components.
- Developed dynamic web pages using HTML, CSS, and JavaScript, ensuring smooth and intuitive user experiences.
- Optimized website performance by improving JavaScript efficiency and implementing faster content loading strategies.

PwC (PricewaterhouseCoopers) — **February 2024 - June 2024**

Trainee – Technology & Transformation Launchpad Program — *Remote*

- Contributed to agile project execution by participating in sprint planning, developing documentation, and deployment.
- Collaborated with cross-functional teams on innovative digital transformation initiatives using advanced technology.
- Assisted in data analysis, process mapping, and automation tasks to identify business gaps and recommend technology driven enhancements aligned with client objectives.

Projects

Amazon Price Monitoring System | *React.js, Node.js, Express, Nodemailer, MongoDB* — **GitHub Link**

- Developed a web scraping tool to monitor and track Amazon product prices in real time.
- Implemented automated email alerts using Nodemailer, notifying users when product prices drop below a set threshold.
- Designed a MongoDB-based database to store historical price trends for analysis and forecasting.

Algorithm Visualizer | *HTML, Css, JavaScript, Data Structures & Algorithms* — **GitHub Link**

- Integrated step-by-step animated visual flows to explain sorting logic and enhance conceptual clarity.
- Implemented customizable visualization controls, allowing users to modify execution speed and array size.
- Built an interactive algorithm visualization platform to showcase sorting algorithms such as Bubble Sort, Merge Sort, and Quick Sort.

Certifications

DeepLearning.AI AI For Everyone

DevTown Bootcamp Data Structure and Algorithm with C++

Achievements & Portfolio

- Solved 350+ coding problems across multiple platforms, strengthening my problem solving and algorithmic skills.
- Secured **2nd position** at the **CodeStorm 2025** hackathon by creating a responsive web application to optimize task management for small teams.
- Still not convinced about hiring me? Explore my portfolio at **rajibul.dev** for any questions or clarifications. Thanks!
